Day 1 June 26th

Time	Session Type	Conference Center Grand Ballroom 1 (大宴会厅1)	Conference Center Grand Ballroom 2 (大宴会厅2)	Conference Center Grand Ballroom 3 (大宴会厅3)	Conference Center Meeting Room 10 (会议室10)	Conference Center Meeting Room 11 (会议室11)	Conference Center Meeting Room 1 (会议室1)	Conference Center Meeting Room 2 (会议室2)	Conference Center Meeting Room 3 (会议室3)	Conference Center Meeting Room 5+6 (会议室5+6)	Conference Center Meeting Room 7+8 (会议室7+8)	Conference Center Meeting Room 9 (会议室9)	Crowne Plaza Ballroom 1 (宴会厅1)	Crowne Plaza Ballroom 2 (宴会厅2)	Crowne Plaza 多功能厅1	Crowne Plaza 多功能厅2	Crowne Plaza 多功能厅3
11:15-12:15	Breakout session (60min)				[LLM407] Large Language Model (LLM) Quantization and Deployment	[AGT312] Modernizing Across Clouds: E2B's Full-Stack Transition to AWS	[INF310] Revolutionizing Quantitative Hedge Fund Research Process Based on MCP and LLM	[ENT304] Enterprise Agent Adoption Trends: Innovations in Manufacturing and Retail Industries	[ENT402] Smart Bidding Assistant: A powerful tool for manufacturing customer to win orders, ten steps faster	[ENT305] AIoT Management Console on AWS	[AGT404] Multi-agents for AIOps	[INF310] SecureAI on GPU instance with AWS Nitro System	[GEN308] Sharing of Best Practices for Role Play Fine Tuning Projects	[MIG402] Gen AI-Powered VMware Intelligence: Revolutionizing Environment Discovery with AWS Bedrock	[AGT201] Automated Infrastructure Inspector	[AGT306] A Prototype of Agent-based Maths Tutoring Application	[NGD310]Best Practices for Running MCP Servers on AWS Compute Services
12:15-12:45	Breakout session (30min)	[DNB403] Know Your Video: How we built a multimodal video search engine and more	[GEN309] AI Site App Builder - A Vibe Coding Platform for everyone and powered by Bedrock	[GEN302]Intelligent Booking Assistant(NWCD.yingyuliu@)			[ROS307] CloudWatch AIOps for Incidents investigation	[DNB307]AI-Powered Video Generation for E-Commerce Advertising					[ROS302] TikTok's International Payment Compliance Framework on AWS	[DAT310] Built scalable AI-tagging engine to enrich customer profile for Sun Hung Kai Properties via Bedrock + Zero-ETL	[NGD302] Design and Implementation of an GenAI-Powered Travel Expense Reimbursement System	[MIG202] AWS AI-Powered Migration and Modernization Tool	[GEN304]AI Pet Highlight Reels: Capturing Your Furry Friend's Best Moments While You're Away
12:45-13:15	Break																
13:15-13:45	Breakout session (30min)	[NGD303] CloudLab - a sandbox built to accelerate builder's free trial and experience-based learning of AWS AI	[ROS303]Posture Enforcement & Continuous Access Control for Amazon Collaboration Tools	[ENT201] IoT Industry Connection Storm Challenges and Solutions	[INF406] Lessons from a real-world optimization for PB-Scale S3	[DAT307] Automatic Field-Level Lineage Construction Based on Amazon Redshift+DataHub	[FSI307] Implementing multicast communication on EKS using TGW for securities trading systems landing on AWS						[LSC301] A Case Study on ByteDance & AWS DX – From Traffic Imbalance to Intelligent DX Networking	[MIG403] Migrating Databricks workloads to EMR(NWCD.jianqiaohe@)	[DNB402]AI-Powered Short Drama Export: One-Click Caption Removal, Translation, and Multilingual Dubbing	[ROS313]Continuously improving resilience through chaos engineering	[ENT101] global IT infra planning for C2G customers and case sharing
13:45-14:45	Breakout session (60min)	[ENT301] Building resilient and scalable Internet of Vehicles applications with a cell-based architecture	[INF404] Building a Fast , Reliable, and Cost-Effective LSM-tree storage by Intergrating Instance Store with EBS	[INF401] CloudPerf - a global network Performance testing and monitoring system	[DNB315]Leveraging Protonbase to Address CockroachDB Challenges and Compete with Alibaba Cloud PolarDB Distributed	[ROS304] Enrich CUR to build FinOps dashboard	[ROS309] How to Discuss and Support ISO 27001 Compliance with Customers	[INF308] How Transsion Win-back and Growth CDN workload on AWS	[MIG310] Cloud2AWS - How a Photovoltaic Industry Leader Migrating to AWS from AliCloud to Achieve Bigger Success	[MIG201] Building fast and running efficiently a landing zone for China and Commercial Regions	[INF307] Strategic Deployment of Large Language Models on Amazon EKS	[MIG305] AWS Best Practice for Windows Server Migration	[ROS301] GCR Observability Solution and OpenTelemetry Deep Dive	[LSC302] Ensuring Resource Utilization and Coverage in EMR during Black Friday Sales	[FSI202] Digital Trading Innovation: Creating Future-Ready Financial Market Applications		
14:45-15:45	Breakout session (60min)	[FSI311] DiDi International Financial Services: Building, operating, and testing Multi-Region DR system on AWS	[ENT302] Building a digital workforce for charging companies using Generative AI	[MIG203] GenAI-Based Intelligent Migration Solution	[FSI301] Harnessing AI for Market Sentiment Analysis and Price Movement Prediction	[FSI304] Unlocking Alpha: Factor Modeling with GenAI and AWS for Modern Hedge Fund Quants	[DNB306]Innovation on Agentizing In-Game NPC	[INF306] AI Acceleration Engine: Graviton-based Dify Full-Stack GenAI Solution - Perfect Balance of Performance and	[DAT323] Building a knowledge base with second-level response based on OpenSearch and DeepSeek	[FSI302] Super BA: How GenAI Enhances the Business Analysis Process for Insurance Product Innovation	[ROS401] Observability on GenAI applications	[DNB303]Unlock the Power of Generative AI: Transforming Advertising with AWS	[INF301] Experience and Insights: AWS inf2 in Alibaba's Use Case		[ROS311]From Design to Production: Successfully Operationalizing AI Applications	[DNB317]Advertising Materials' Understanding and Tagging Powered By LLM	[AGT311] Unleashing Enterprise Data Value with Agent and MCP: ISV Partner Implementations
15:45-16:00	Tea Break																
16:00-18:00	Workshop (120 min)				[NGD306] From Requirements to Production: End-to-End Software Development Powered by Amazon Q Developer	[AGT303] Workshop: Building End-to-End AI Agents Powered by MCP	[ROS308]Building Secure & Compliant Generative AI Applications on AWS	[LLM304] From Guesswork to Precision: Selecting Optimal Instances for Foundation Models with FMBench	[BYT304]#Oneteam RACI including post sales stage (by invitation only)	[DAT416] Taking E-commerce Scenario as an Example: Data Governance to GenAI End-to-End Solution Workshop		[DNB309]Monetize Live Streams Seamlessly: Build a Commercial-Grade Platform with SSAI in Minutes	[LLM306] LLM as a judge from theory to practice	[DNB310] AI Vision Workshop: A Creative Journey from Image to Video Generation	[ROS202]CloudRaiser Competition Hands-on Workshop		[INF304] Accelerating Application Migration to Graviton Through Amazon Q Developer CLI
18:00-18:30	Break																
18:30-21:30	Dinner	Grand Ballroom 1+2+3 (大宴会厅1+2+3)															

Time	Session Type	Conference Center Grand Ballroom 1 (大宴会厅1)	Conference Center Grand Ballroom 2 (大宴会厅2)	Conference Center Grand Ballroom 3 (大宴会厅3)	Conference Center Meeting Room 10 (会议室10)	Conference Center Meeting Room 11 (会议室11)	Conference Center Meeting Room 1 (会议室1)	Conference Center Meeting Room 2 (会议室2)	Conference Center Meeting Room 3 (会议室3)	Conference Center Meeting Room 5+6 (会议室5+6)	Conference Center Meeting Room 7+8 (会议室7+8)	Conference Center Meeting Room 9 (会议室9)	Crowne Plaza Ballroom 1 (宴会厅1)	Crowne Plaza Ballroom 2 (宴会厅2)	Crowne Plaza 多功能厅1	Crowne Plaza 多功能厅2	Crowne Plaza 多功能厅3
09:00-10:00	Breakout session (60min)	[LLM307] Advanced ASR Model Fine-tuning: Whisper Transcription and LLM Error-correction	[AGT402] BrainForce - GCR Internal Data Agents Framework	[DNB313]Real-Time Character Synthesis for Immersive Role-Play Experience	[NGD301] Next Generation Programming Paradigm: How Professional Developers Can Efficiently	[DNB311]Leveraging Amazon Bedrock: Solving Diverse Translation Challenges for a Leading Game Developer	[LLM303] Scaling Federated Learning with Flower and SageMaker	[ENT311] [MIH] Building Industry-Robust Agents for Document-Centric Workflows: Workflow Integration VS Full ReACT	[AGT310] Building a multi-agent TV entertainment AI assistant in China regions.			[AGT305] Building Your Own GitHub SourceCode Analysis Assistant Using Strands Agents, LanceDB, and MCP		[LLM401] Reinforcement Learning and Its Applicatioins in Gaming	[AGT314]Strands Agents SDK dive deep and practice sharing	[ENT312] GenAI for Smart Cameras: A Secure VLM Split-Model Solution	[NGD305] How Large Enterprise Leverage GenAI for Developer Success
10:00-11:00	Breakout session (60min)	[ENT307] How AWS Helps the AI-Biopharmaceutical Industry Accelerate Protein Structure Prediction in Drug Development	[INF303] Best Practices of Networking Monitoring & Troubleshooting on AWS	[MIG312] The 30-Day CDN Challenge: ASUS's CloudFront Migration Playbook		[MIG311] Summary of AWS cloud data replication and migration solutions	[MIG307] The Art of Team Work - From 0 to Unlimited, Build Customer Trust, From IoT to Purchasing SAP RISE Big Orders	[ROS312] Enterprise using cloud foundation to optimize global cloud management in Hi-Tech and MFG	[DAT417] Data Governance and Data Mesh on AWS - Move Beyond a Monolithic Data Lake to a Modern Distributed Data Mesh				[MIG303] Cloud2AWS - Break through China region growth bottlenecks and deepen customer partnerships with Azure Migration	[LSC305] Spark on EKS: The Road to 70% CPU Utilization		[ENT401] AWS HPC Applications in Manufacturing and Automotive Industries	
11:00-12:00	Breakout session (60min)	[AGT403] DataRetriever - Data Agent for structured data analytics	[FSI309] Application of CNN in Quantitative Investment Alpha Modeling	[ENT310] Case Study on Empowering Industries with Graph Data and AI	[NGD307] The Rise of AI Coding	[GEN306]Your Pocket English Coach: Nova Sonic Speech-to-Speech by SwiftChat	[ENT303] From Doubt to Trust: Transparent AI Paves the Way for Equitable Autism Care Worldwide	[FSI201] Building a RAG LLM Platform for FSI Customers - From Concept to Production	[INF402] GPU Virtualization Technology and Competition Analysis		[DNB314]AI Reshaping Video Moderation: The Evolution from Rule Engines to Multimodal		[LLM403] Amazon SageMaker Training & Inference Tech Advantages and Selling Points	[AGT302] Tesla AI Nexus: An innovative journey towards generative AI	[ENT308] Automotive Aftersales Graph on AWS	[AGT304] Paradigms of Agent Development and the Art of Framework Design	[ENT309] Practical Applications of Multimodal Large Models in the Automotive and Manufacturing
12:00-12:30	Breakout session (30min)	[DNB301] An Analysis of TikTok Ads × AWS Intelligent Recommendation Technology	[ENT313] Enterprise AI Platform Construction Methodologies for Retail Industry	[DNB305] Decoding the Classroom Genome: Building AWS-Powered Behavioral Intelligence in The Age of AI	[NGD401] AI-Powered DevOps Assistant		[LLM404] From Hearing to Understanding: Fine-tuning Speech-to-Speech Models for Voice Customer Service	[AGT309] Developing Intelligent AI Agents: Practical Integration of Amazon Bedrock's Nova Act with MCP	[AGT401] Multi-agent report gen tool use cases across industries				[INF311] Accelerate game art design -- Best practice of Krita+ComfyUI integration	[AGT203] Infra Forge : Deploy and evaluate the AWS infra in agent way		[AGT301] Amazon Bedrock Agents in Action and Security Considerations	[AGT313] Efficient Redshift Operations and Maintenance Based on Q developer + MCP
12:30-13:00	Break																
13:00-13:30	Breakout session (30min)	[INF309] Build a centrally managed app store for Windows OS in China region(NWCD.helius@)	[MIG302] Cross Region & Cross Account Migration Empowers E-commerce Customer's Global Business Expansion	[LSC306]Best Practices for Managing Large-Scale Hybrid Environment Instances with System Mgr China Region(NWCD.chunmji@)	[DAT320] New Strategy for Ali Cloud Big Data Load Migration in China	[DNB304]Open Source Innovation: TEN-framework Drives Nova's MultiModal AI Ecosystem							[MIG101] Demonstrating Effective Project Management Principles Through Real-World Case Studies of Migration Projects	[DAT302] Building a Modern Data Lakehouse Practice with AWS Native Services(NWCD.ninamz@)	[MIG102] Modernize with AWS - Building a sustainable modern transformation framework		
13:30-14:30	Breakout session (60min)	[INF405] Nitro Networking	[LSC304] Battle Experience for Large Scale eCommerce Workloads	[FSI312] AWS for Crypto HFT: Speed, Ecosystem Allies, and Tools That Every SA Needs	[DNB316]Large Scale SLG Game on AWS	[MIG308] Cloud2AWS - Migration as Code: Automated Cloud Migration with CDK and Terraform: AliCloud Case Study	[MIG309] IDC2AWS - Bayer IDC Migration Compete With Azure	[DAT308] Zero-Downtime Migration Practice for Large-Scale MySQL Clusters and Analytical Workloads	[MIG301]Cloud Migration Theory and Practice: In-Depth Analysis of AWS Application Migration Service and VM Import/Export	[DAT405] Data on EKS Best Practices						[ENT202] Accelerate Snowflake Integration into Data Landscape	[MIG306] SAP HANA to Snowflake Seamless migration best practices(NWCD.xwngz@)
14:30-15:30	Breakout session (60min)	[INF305] Introduction of Hybrid GPU High Resilience solution	[DNB401] Automatic Speech Recognition via Whisper: Architecture, Streaming, and Finetuning	[DAT304] Deep dive into Sagemaker Lakehouse & Unified Studio	[DAT313] Leveraging Open-Source Stack to Migrate an One-Stop Data Platform	[LLM402] Using Amazon Sagemaker to train GRPO LLM and VLM	[Gen301] Building Enterprise Automation Workflows with n8n and MCP(NWCD.kunma@	[LLM406] The Experiences and Best Practices of VLM Training: From SFT to GRPO	[DAT322] TrendMicro's Next-Gen Security: Scaling GraphRAG for Enterprise Threat Detection	[ENT203] Personalized Product Recommendations using Amazon Bedrock Agents	[ENT403] AI-Enabled Wind Power: Revolutionizing Power Forecasting with the Pangu Weather Model	[DNB308]Short drama/Ads/Marketing Video creation from Materials	[INF403] H200 training on EKS practice	[LLM305] LLM Fine-tuning and Distillation: From Theory to Practice - A Case Study in Legal Domain	[AGT308] GenAI Agent Design Pattern by Dimistifing Architect of Cline	[DAT311] Leveraging ISV Partnerships for Enterprise-Grade Real Time GenAI Solutions	[GEN303]One Stop AI Ordering Solution by Amazon Connect & Nova Sonic
15:30-16:30	Beyond Tech (60 min)	[BYT101]Debugging the Mind: GenAI's Impact on Technical Identity"	[BYT103] Nine Years at AWS: Navigating Change in the Age of Generative AI	[BYT102]The Five Stages of Career Development in Tech Roles at AWS	[BYT301]Awakening Inner Energy: From Environmental Pressure to Transformative Power	[BYT305]Build Enterprise GenAI Workload with Partner Synergy	[BYT105]Building a Unified AWS Engagement Model: A OneTeam Strategy for Complex Enterprises	[BYT303]The MBTI Code: Unlocking the Art of Effective Communication	[BYT104]Elevate to Innovate: Transforming Enterprise Engagement	[BYT302]The Art of Crucial Conversation	[BYT201]Befriending Anxiety: Happiness++	[BYT202]Driving Amazon Q Business workload through real business use case discovery					
16:30-17:30	Breakout session (60min)	[INF407] Architecting Global Networks with AWS CloudWAN: A Customer-Centric Approach	[DAT319] Three thing you need to know before Migration to Iceberg: Yahoo and Ring story	[INF201] 2024-2025 evolution of Internet traffic	[DNB302]MemoryDB adoption best practice in Gaming industry-Memory based key-value DB drives player experience	[ROS305] AWS FinOps in China: CID Dashboard for Enterprise Cloud Cost Transparency(NWCD.pangaofe@)	[MIG401] StarRocks Migration Solutions Sharing(NWCD.tingxinxu@)	[DAT315] Flink Anywhere: Rapidly Building Flink Data Synchronization Pipelines for Various Scenarios on Amazon EMR		[MIG304] Small Team, Big Migration: Architecting Enterprise Cloud Journeys with AWS Against All Odds	[ROS306]CR-OCEAN: Accelerating Overseas Compliance for Chinese Customers Expanding Globally	[LSC303]Building aMillion-Scale E-commerce Communication Gateway: Trip.com's Migration Journey with AWS SES Mail Manager		[DAT309] The Intelligent Enterprise: Building Petabyte-Scale Transactional Data Lakes for AI-Powered Innovation	[FSI303] Accelerating Web3 Analytics: How StarRocks Transformed Ksam's Blockchain Data Management	[FSI308] Exchange Matching Engine Optimisation	[DAT318] Valkey GLIDE for Enhancing Valkey/Redis System Robustness and Sharing of Gaming Customer Cases
17:30-18:30	Breakout session (60min)	[LLM302] A deep dive into the E2B Infra open source project, the foundation of the popular application Manus	[NGD309] Amazon Q in Action: 6 Stories Taking You into the Age of AI-Assisted Development	[GEN307]Intent GraphRAG: Graph-Enhanced Customer Service Automation	[AGT307] Practical in Automated Testing with MCP Protocol-Driven AI Agents	[LLM301] 基于SageMaker HyperPod on EKS 构建企业训练平台	[NGD304] Use Multi Agent architecture Agent Design to Improve ITops automation.	[FSI306] A Hybrid Approach for Content Moderation with Large Language Models	[FSI305] Driving Mortgage Process Automation with AI Multi-Agent: E.SUN Bank's Journey with Use Cases	[LLM405] Large-Scale Recommendation Systems Based on TorchRec	[DNB312] Beyond Nova: Long Video Understanding, Tagging, and Q&A	[ENT306] GenAI in Action: Customer Service and Office Automation with Dify+Bedrock - A Real-World Implementation	[INF302] Networking in LLM Distributed Training	[NGD308] Code Generation with Code Graph Rag & MCP			
18:30 PM	自由活动
